

## Agenda Item Staff Report

**To:** Honorable Mayor and Members of the City Council  
*For the Meeting of November 9, 2021*

**From:** Chris Constantin, City Manager  
Jeff Malawy, City Attorney

**Subject:** Public Hearing Regarding Draft District Maps and Election Sequencing for a District Based Election System; Selection of District Map and Election Sequence; Introduction of Ordinance No. 1292 Establishing a District Based System of Elections for Members of the City Council

### **SUMMARY**

38 district maps and 3 potential communities of interest have been submitted prior to the deadline and posted on the City's sandimasdistricts.org website. To view the maps and to see the proposed sequencing of elections, please see the "Draft Maps" tab on the sandimasdistricts.org website. The City Council should conduct a public hearing to receive input from the community on those maps. The City Council may consider and revise any draft map, and may select a map or revised map and election sequence tonight for introduction with Ordinance No. 1292 to establish a district-based system of elections for members of the City Council.

### **RECOMMENDATION**

Staff recommends the City Council:

- 1) Receive a presentation from the City's demographic consultant, National Demographics Corporation, regarding the draft district maps and election sequencing;
- 2) Conduct a public hearing to receive public input on the draft maps and election sequencing;
- 3) Provide any comment or revisions to the draft maps;
- 4) Select a district map and decide which two districts will have elections in 2022 and which two in 2024, and incorporate those selections into Ordinance No. 1292;
- 5) Introduce, through first reading by title only with further reading waived, Ordinance No. 1292 establishing a district-based system of elections for members of the City Council.

### **BACKGROUND**

The members of the San Dimas City Council are currently elected at-large. In an at-large election

system, every voter in the City votes for each member of the City Council, regardless of where the voter or the candidate resides.

On August 25, 2020, the City Council approved a settlement agreement with attorney Kevin I. Shenkman, who had alleged the City's at-large system of electing City Councilmembers violates the California Voting Rights Act because it allegedly abridges the rights of Latino voters. Under the settlement agreement, Mr. Shenkman waives all of his claims against the City, provided the City adopts an ordinance transitioning to district elections in time for the next City Council election.

Under a district-based system of elections, the City would be divided into geographic districts, and City Council candidates may only run for the seat representing the district in which they reside, and voters may only vote for the candidates from their district. The City currently has a directly elected Mayor, elected at-large. The Mayor can continue to be elected at-large even under a district-based election system for the other city councilmembers.

If the City Council chooses to transition to district elections, it would need to select a map and introduce the ordinance by November 17, 2021 at the latest and adopt that map and ordinance by November 23, 2021 at the latest,<sup>1</sup> in order to hold district elections in the June 2022 City Council election. The settlement allows the City to choose its own district boundaries, rather than risk a court doing so, and avoids the potential of paying millions of dollars in attorney fees to Mr. Shenkman (as other cities have been ordered to pay).

## **DISCUSSION**

A draft map must be publicly available and posted on the City's website ([sandimasdistricts.org](http://sandimasdistricts.org)) for at least seven days before it can be considered by City Council at a public hearing. If a change is made to a map at the public hearing, the revised map must be posted at least seven days before it is adopted.

For consideration at tonight's hearing, 38 maps and 3 potential communities of interest have been submitted and posted on the City's [sandimasdistricts.org](http://sandimasdistricts.org) website for the required seven days.<sup>2</sup> National Demographics Corporation has posted and arranged the maps and reviewed for contiguity and/or population balance issues. These are noted under the "Draft Maps" tab. Further, the page shows a table of a proposed election sequence for each map. Each DistrictR draft map also includes the demographic data by proposed district under the "evaluation" tab.

Staff recommends the City Council hold the public hearing and then discuss the draft maps. The City Council may revise any of the maps tonight, if desired. The Council may then select a map or revised map for incorporation into Ordinance No. 1292. City staff will provide maps in the lobby for those who want to see paper maps leading up to the public hearing.

---

<sup>1</sup> The actual deadline set by LA County is December 9, 2021. However, an ordinance must be adopted at a regular meeting. The last regular San Dimas City Council meeting prior to December 9 is November 23, 2021. The ordinance must be introduced by November 17 because an ordinance cannot be adopted within five days of its introduction.

<sup>2</sup> A public hearing notice for tonight's hearing was published in a newspaper of general circulation on Oct. 21, 2021.

Sequence of Elections

Along with selecting a map, the City Council will also need to decide the sequence of elections. The Council will need to choose which two districts will be up for election in June 2022, 2026, 2030, etc, and which two districts will be up for election in 2024, 2028, 2032, etc. The proposed sequences on the sandimasdistricts.org website are only a proposed suggested sequence for each map, which the City is required to post by law. The City Council can choose any sequence it wishes, whether proposed or not.

Councilmembers Bertone and Vienna's current terms expire in June 2022. The two districts Council selects to be up for election in June 2022 will replace Councilmember Bertone and Vienna's seats after the June 2022 election. Councilmember Vienna and Bertone may run in June 2022 if they reside in one of those districts.

Councilmembers Ebiner and Weber's current terms expire in March 2024. The two districts Council selects to be up for election in March 2024 will replace Councilmember Ebiner and Weber's seats after the 2024 election. Councilmember Ebiner and Weber may run in 2024 if they reside in one of those districts.

If Councilmember Ebiner or Weber reside in a district up for election in June 2022, they may run in that election. If they are not elected, they remain in their current seat to continue their current term that expires in March 2024. If either is elected in the June 2022 election, their current seat on Council will become vacant and the Council may appoint someone or call a special election to fill the vacancy until that seat's term expires in March 2024.

**CONCLUSION**

After selecting a map and sequence of elections, the City Council may move to incorporate those selections into Ordinance 1292 and introduce that ordinance tonight. Staff will bring the ordinance back for adoption on November 23, 2021. Staff will then submit the ordinance and map to the County by the December 9, 2021 deadline.

Respectfully submitted,

Chris Constantin  
City Manager

Jeff Malawy  
City Attorney

## **Communities of Interest**

### Community of Interest #1 Puddingstone & Via Verde as One

For the communities of Puddingstone and Via Verde, we urge that we be placed into one district. We share common goals, socio-economic, and geographical territory. There are a couple of maps that split us into other districts. This should not happen! We share nothing in common with those future districts (if you were to adopt) or communities and our boundaries cut off after the Metro tracks on San Dimas Ave. The southern portion of San Dimas is affluent would disadvantage the communities who come from a lower socio-economic level, if we were to be placed in a district with them. Therefore, the Puddingstone and Via Verde communities demand to be placed in one district!

Community of Interest #2  
Via Verde & Puddingstone Community of Interest

This is an example of how and why the communities of Via Verde and Puddingstone are a COI (Community of Interest). Via Verde and Puddingstone represent the communities of the affluent, we share a contiguous space that must not be separated. The boundaries included are upon the northeast side of San Dimas Ave, the communities that surround Raging Waters, Puddingstone Reservoir, the gated communities on the south on San Dimas bordering Walnut, communities around Vons, to the western portion bordering Covina, and those below the Antonovich Trail and Watershed Conservation Authority territory.

Let it be noted that, unfortunately due to the sour grapes of a certain community member (DE), we do not support the districting of our San Dimas but if there is no other option, then the Council must remember that the aforementioned community of interest must remain together, in one district. Nothing more, nothing short.

Community of Interest #3  
Community 1 Via Verde

This San Dimas area is the Southern most area of the city. These hillside areas share the same social economic values, property values are very high. The concerns for fire, trees, parks, freeway access and crime concerns need fair representation.
