

# DRAFT VISION STATEMENT AND GOALS

## Draft Vision Statement

The creation of the Draft Vision Statement for the San Dimas Downtown Specific Plan has been informed by the community throughout the creation of this plan. New development and improvements in the Specific Plan area should actively contribute to the fruition of this statement:

***Downtown is the heart of the City of San Dimas- a walkable and vibrant activity center which celebrates and preserves its historic, charming character and provides a diversity of retail, restaurant, cultural, and civic uses, a variety of housing types, and local employment opportunities which breathe life and activity into the town core.***

1. Is there anything that's missing in the Vision Statement? Is there a phrase you would like to add or change? Please state 'none' if no revision is recommended.
