

Beginning January 1, 2022: Yard, food and soiled paper waste can be placed directly in your **GREEN ORGANICS CART** together, mixed, without any plastic bagging. All materials must fit inside the cart with the lid closed.

## Tips to Help Keep Odors Out of Your Cart

### Storage Tips:

**Option #1** Collect food and soiled paper scraps in a sealed countertop storage container until they are ready to be placed inside your green organics cart.

**Option #2** Need to save counter space? Seal food and soiled paper scraps inside a bag or container and keep it in the freezer before placing in your green organics cart. Make sure not to put a plastic bag or container in your cart! No plastics of any kind are allowed in the green cart (even bio bags).

### Cart Tips:

Layer organic waste inside your cart to help protect against odors. Just follow these simple steps:

1. Line the bottom of your cart with paper (newspaper, junk mail, etc.).
2. Place yard waste inside the cart.
3. Wrap food scraps in newspaper or a paper bag and place it on top of the yard waste.
4. Cover food scraps with more yard waste to help seal odors in.

### Need a New Cart?

San Dimas residents can request a cart replacement once per year at no additional charge. Please call customer service at (800) 266-7551 to request your cart.
